Welcome to the second newsletter regarding construction of Claverham Community College.

Project Information

Preparation works for the temporary school buildings are going well, these are required so that we can continue to provide education to the pupils while we demolish and rebuild the main school building.

We are busy excavating and pouring the concrete foundations needed to support the units that will make up the temporary school. These units will start arriving on site during the week commencing 19 July and will be installed using a 250-tonne crane over a nine week period.

Deliveries will be scheduled to arrive to site between 8am and 4pm. We will do all we can to minimise disruption on the local roads, such as careful selection of delivery routes and staggering deliveries.

On site we have also been installing a new network of underground ducts in and around the school buildings. These ducts will be used to supply power and data to the temporary school and eventually the completed school buildings.

We plan to have the temporary school ready for the pupils to use at the end of October.

We are holding regular meetings with the school management team and have been working in close collaboration to minimise any possible disruption in and around the site.

We will continue to keep you informed as the project progresses. Thank you in advance for your patience and understanding during our works.

If you have any concerns please email us at communitysupport@bandk.co.uk or contact:

Considerate Constructors Scheme Code of Practice

Considerate constructors seek to improve the image of the construction industry by striving to promote and achieve best practice under the Code.

Enhancing the Appearance

Constructors should ensure sites appear professional and well managed.

- Ensuring that the external appearance of sites enhances the image of the industry.
- Being organised, clean and tidy.
- Enhancing the appearance of facilities, stored materials, vehicles and plant.
- Raising the image of the workforce by their appearance.

Respecting the Community

Constructors should give utmost consideration to their impact on

neighbours and the public.

- Informing, respecting and showing courtesy to those affected by the work.
- Minimising the impact of deliveries, parking and work on the public highway.
- Contributing to and supporting the local community and economy.
- Working to create a positive and enduring impression, and promoting the Code.

Protecting the Environment

Constructors should protect and enhance the environment.

- Identifying, managing and promoting environmental issues.
- Seeking sustainable solutions, and minimising waste, the carbon footprint and resources.
- Minimising the impact of

vibration, air, light and noise pollution.

- Protecting the ecology, the landscape, wildlife, vegetation and water courses.

Securing everyone's Safety

Constructors should attain the highest levels of safety performance.

- Having systems that care for the safety of the public, visitors and the workforce.
- Minimising security risks to neighbours.
- Having initiatives for continuous safety improvement.
- Embedding attitudes and behaviours that enhance safety performance.

Caring for the Workforce

Constructors should provide a

supportive and caring working environment.

- Providing a workplace where everyone is respected, treated fairly, encouraged and supported.
- Identifying personal development needs and promoting training.
- Caring for the health and wellbeing of the workforce.
- Providing and maintaining high standards of welfare.

The Code of Considerate Practice outlines the Scheme's expectations of all registered sites and companies, describing those areas that are considered fundamental by the Scheme in helping improve the image of construction.
